THE MEASURE OF LIFE.

BY WM. GILL MILLS.

Written on the Eve of My Birthday. How do ye measure man's life? Is it by The course of the earth as it rolls aroun The solar orb, and as seasons fly \$5 00 Where bloom, and fruit and decay are found?

15 By wrinkled brow, and heary head, With bended form and tottering tread?

the Giver? Pisin death notices, free. Obituary re- That we pass on earth, and call it Life? rise in press. Si per square; in poetry. Oh, no! Life cannot be measured thus: It is something more noble and true; For if length of days is all of us. Life is vain and worthless, too.

And tend it with care that none may de-

stroy IL To reserve and receipt for money due us. That ye may pluck the delicious fruit, And only your own dear selves enjoy It? From those that have not so firm a hold?

....Las Cruces. To gratify your selfish pride,Globe City. Oh, no! Life cannot be measured thus: JOHN P. CLUM, Proprietor. These are but transfent things; For if life has no greater charm for us. Our Lliss lies on butterflies' wings,

> How shall an immortal, then, measure this life? By the power of the good and generous deed;

By the aid we give in the galling strife To those who lack in the hour of need; By speaking the word to lift those up From the gloom of despair to the light of hope;

Is better than length of days.

Tombstone Bullion.

TUCSON, June, 1879.
